Weekly news from the Middle Atlantic Region

The following email is intended for ([papenberg1@verizon.net](mailto:papenberg1@verizon.net)):

**See something of interest?** Please share our postings with colleagues in your institutions!

## Spotlight

**COVID-19 is an emerging, rapidly evolving situation.**

Get the latest public health information from CDC: <https://www.coronavirus.gov>

Get the latest research information from NIH: <https://covid19.nih.gov/>

**Upcoming Webinar on Digital Partnerships:** The nature of library partnerships continue to evolve based on the introduction of new technologies and programs that focus on leveraging the expertise of academic and health system libraries to support telehealth applications. These partnerships benefit from strong support in traditional areas such as research and scholarship while taking advantage of the community relationships that extend out for health promotion and education. Sponsored by NNLM MAR, this one hour webinar will focus on the ability of libraries to take concrete steps to support the development and provision of telehealth services in ways that meet the needs of new populations while furthering the research surrounding healthcare access and equity. Join us for this webinar on March 2 at 1 PM ET. [Registration is now open.](#)

## Network of the National Library of Medicine News

[Bias Awareness Resources](#) – NER Update

[NExT Continuing Education Modules Available](#) – Midwest Matters, from GMR

[Health Information for All: Language Resources](#) – NER Update

**NNLM Spring #citeNLM Wikipedia Edit-a-thon:** Join us for the month of March in our campaign to improve health information on Wikipedia using NLM and other quality health information resources. Our focus this campaign is on Healthy Aging, which includes the habits, behaviors, and environmental factors that contribute to healthy living throughout your entire life span. There are several ways to participate, including

joining our [live session](#), taking a [course](#) on Wikipedia and libraries, and attending our health misinformation [webinar series](#).
